4

MISSIONS done so far out of fourteen

We thank God for enabling us to reach the halfway mark of 2023 and as African Enterprise, the past six months have been filled with evidence of God's hand at work through us. Lives have been changed, millions have been reached with the word of God, and thousands have received Christ.

Stratified Evangelism and Discipleship

ATAKPAME MISSION

The Atakpame mission was the first mission of the year and despite the challenges leading up to it, the Lord's faithfulness was brought to bear in Togo. It is incredible how the Lord's hand was seen throughout the entire mission. Even doors that were initially shut were opened as the mission was executed.

By God's grace **137,000** people in Atakpame were reached in the 10 days of the mission. During the Atakpame mission, several programs were ran in order to reach as many people as possible with the message of Christ and radio as well as leadership meetings were some of the methods used on top of stratified evangelism, serve the city, reconciliation workshops, and youth ministry.

LEADERSHIP MEETINGS

A one-day conference was organized for 150 pastors and church leaders to address their role in church growth. Then 120 women leaders were brought together to encourage them to see their role in the church as critical for church growth and city development.

A special dinner meeting was organized for 80 city leaders. Government, security, civil, traditional, religious and marketplace leaders were present. We encouraged the leaders to see their role as critical in city development. The leaders were impressed and 20 of them were saved. The mission steering committee leaders took it upon themselves to follow up on the saved leaders.

Stratified Evangelism and Discipleship

DURBAN MISSION

AE South Africa carried out the first of three city-wide missions in Durban at the start of the year in March. The Durban missions have been broken into weeks spread throughout the year and Durban mission week 1 happened in March from 15th to 21st. The Durban mission week 1 was filled with testimonies of healing, and restoration, many lives were won over into the Kingdom of Christ.

Week 1 of Durban Mission 2023 involved 74 representatives from different churches at the thanksgiving and closing prayer service. We thank God for uniting different churches in the ministry of reaching the unreached and saving the lost.

Instantly Healed!

During our stratified evangelism on Saturday, 18 March, the lady on the left was instantly healed, after Xenia, an AE mission volunteer (on the right) prayed for her!

She was suffering from the after-effects of a stroke. She had difficulty walking and had to use a crutch; she also could not raise her left arm at all.

Immediately after the prayer she realised that something had changed...she left her crutch and started walking around the pews in the church, which she couldn't do before, then started skipping, and lifting both her arms high praising God. We thank God for this miracle; and there were others too. Praise His holy name!

Stratified Evangelism and Discipleship

UNIVERSITY OF GHANA MISSION

The University of Ghana Mission started as a thought which came out from a friendly discussion among Mission Partners such as Students in Mission Deutland (SMD), Ghana Fellowship of Evangelical Students (GHAFES) and African Enterprise (AE Ghana). As the thought grew toward becoming a reality, other partners (University Christian Fellowship (UCF), Legon Interdenominational Church (LIC), Bible League and Institute of Christian Apologetics Studies (ICAS) joined the mission wagon.

There were 20 volunteers from Germany, including Dr. Alexander Fink – Director of the Institute of Science and Faith. In addition, there were 20 volunteers from AE Ghana and over 300 Christian Students representing UCF and GHAFES. The mission was a unique one because it had four major game changers, namely, The Mark Drama, Lunch Bars, Stratified Evangelism, and Bible Exposition. At the end of the day, the gospel reached over 67,000 people and 1,250 people made a commitment to the Lord – A first-time commitment or rededication.

I am now fully convinced

"I believe the campus mission was organized specifically for me. The talk programs have broadened my knowledge about God and I have found answers to personal questions and questions I have encountered during evangelism.

I had read the book of Mark before but could not grasp it as vividly as I did today.

The part that really hit me the most is when the actor playing Jesus was praying and groaning with tears knowing what suffering was ahead of him. I thought to myself that, if I were in his shoes I will be asking God if the people I am dying for are truly worth it. Because I have experienced their wickedness and pride for myself.

'If I were in his shoes, I will be asking God if the people I am dying for are truly worth it.'

At that point the reality of the love of Christ for us and the willingness to do the will of the Father even though the price to pay was so great as well as knowing how wicked the people he was paying that price for were.

I am now fully convinced that Jesus is God and not a man. Because no man could have had such a desire, seeing and experiencing such wickedness and pain he would be willing to go through with the process. The Mark Drama especially has painted the real picture of how Jesus lived and died for me. After watching Mark Drama and seeing evidence of Jesus' death which was true medically, I was so traumatized as though I had witnessed the actual scene myself.

Indeed, the University Mission has brought to my understanding the full picture of the great exchange that took place at the cross of Calvary on my behalf. "

Stratified Evangelism and Discipleship

MUTARE FOR JESUS MISSION

The Mutare for Jesus Mission brought together 103 churches that came from 47 different denominations.

The Mutare mission gathered 372 missionaries, both local and international, and 779 missionaries were trained and equipped. **56,663** people were reached and **10,308** made decisions to follow Christ.

Mutare Prayer Breakfast

The Prayer Breakfast was held at Holiday Inn and was themed, "Servant Leadership" based on Matthew 6:33. The Guest of Honor, Mr. Mukoyi, together with other speakers emphasized that good leaders do not consider their own interests above the interests of their followers; rather, they first seek the Kingdom of God and His righteousness.

Government officials, AE leaders, business leaders, pastors, and other church leaders were in attendance. The event gave a platform to a number of speakers including; The Permanent Secretary, Reverend Canon Waziweyi (steering committee chairperson), Dr. Lutangu Lubasi (AE Regional Team Leader), Dr. Mugwidi (AE Zimbabwe Team Leader), and Dr. Jokonya (Board treasurer).

The Permanent Secretary expressed his appreciation to African Enterprise and all the missionaries for the evangelistic efforts that were employed throughout the proclamation week. He expounded that the theme of the mission addressed a big problem in the city of Mutare. He was confident that the mission would continue to have a positive impact on the rampant drug and substance abuse cases in Mutare and throughout Zimbabwe.

Major Achievements

1. The Mission brought two church mother bodies to work together for the first time. Churches under the Zimbabwe Council of Churches and the Evangelical Fellowship of Zimbabwe worked together for the first time and they have vowed to find each other and work together in mission
2. Churches in Mutare have embraced the stratified evangelism strategy and most pastors have started preparations for door to door evangelism using their trained missionaries.

Jesus All About Life

University Students grab JAAL campaign eagerly

AE Rwanda had meetings with the University students association leaders of Rwanda Huye Campus and IPRC Kicukiro in a bid to mobilise students for the Jesus All About Life phase two camping. We thank God for the many students that bought the ministry idea eagerly and hundreds of souls were won to Christ as a result. Several gospel musicians were also brought on board for the mission.

REACHING THE LOST, ANYWHERE AND EVERYWHERE!

Jesus was known for unsettling the status quo by befriending the outcasts, dining with thieves and tax collectors and entertaining the company of prostitutes. AEE Rwanda took on the Jesus model of embracing the lost, the last and the least by taking the gospel message to Nyabisindu, Kigali Gasabo district, a place renowned for being the residence for sex workers.

In this campaign which was held on 13th May 2023, AE Rwanda partnered with Pentecostal church ADPER, and an estimated 4900 people were reached with the gospel, with 75 people accepting Jesus Christ as their personal Lord and Saviour.

Institute of Evangelism

Revitalizing Evangelism Training in Africa

As we carry out our vision of evangelizing the cities of Africa in partnership with the local church, we have been involved in mission mobilization, mission training, producing evangelism material, and strategy development for effective urban evangelism in African cities and beyond. Our aim to equip evangelists theologically and holistically has led us to launch the African Enterprise International Institute of Evangelism to provide formal training on Evangelism, create a resourceful center for Evangelists, and engage the church in Africa for global mission.

The urgent need for clergy and laity to be equipped to sharpen and improve their effectiveness in evangelism has led to AE carrying out training dubbed '40 on 4' that seeks to empower 40 leaders on its 4 mission books across multiple countries. Over 380 evangelists have been trained as the first cohort of the Institute. The evangelists and senior church leaders from different denominations have been trained in this first quarter of 2023 (January-April). These have begun revitalizing the culture of evangelism in the Church in Africa. They will undergo two more training phases within 2023 to complete the Certificate level.

40 ON 4 IN KENYA

Pst. Michael Aketch, Pastor at Nairobi Baptist - Kitengela

"I thank God for being part and parcel of this training. Being true to myself, I did not come with any expectation. But on day one I got to understand what the training entails. About how us as christians and as the larger body of Christ should be totally sold out to evangelism. I am so glad and grateful that I came.

The facilitators were amazing, they fully understood the book and shared their knowledge with us in a fun way, I believe that the book is a powerful teaching tool and I will use it in my local church. I cannot wait for the next set of classes."

Agnes Matheka, Evangelist at Parklands Baptist Church

"I have been an associate of AEE Kenya for a number of years, and getting the opportunity to be trained on their four books of evangelism ministry was something that I could not pass up. I have learned more on how to be an effective evangelist in two days than I have in all my years of ministry.

I am grateful for the trainers who made the sessions enjoyable and easy to understand and digest. I look forward to the next class in June."

"I have learned more on how to be an effective evangelist in two days than I have in all my years of ministry."

VISION

**To evangelize the cities of Africa
in word and deed in partnership
with the church**

MISSION

**Transformed lives in Christ
through an empowered Church**

Community Transformation

CTGs in South Africa

African Enterprise South Africa began a CTG in Edendale , Pietermaritzburg in March 2022. The aim of the group was to empower former graduates of the Ngezandla Zethu Project spiritually, economically and socially. We are grateful for wonderful testimonies that we have received through the implementation of the CTG approach. Individuals have been empowered to earn a living and start up small businesses as they mature in the faith through studying God's Word together. Out of their business earnings, each member makes a monthly contribution of R200 into a central fund. They decided that they wanted to grow their businesses through purchasing sewing machines for all members. A sewing machine is purchased for one member at a time from the group on a roster basis in order of who is in greatest need. As the cost of a machine changes from month to month, the group resolved to contribute an extra R50 to overcome this challenge. The group is helping members to overcome dependency syndrome by purchasing the machines from their savings.

Zandile Mkhize, who is a former student at Ngezandla Zethu Sewing project, received her first sewing machine in September 2022. She was excited to receive her machine and was glad that she can work from home and grow her sewing business. She is so proud of herself and the group members for this achievement. Before joining the CTG, she never imagined she could afford a sewing machine. The group savings have enabled her to achieve her goals faster. She is grateful to God and to African Enterprise for introducing the CTG approach which has helped change their mindsets especially on resource utilization among many other benefits of this approach.

Community Transformation

Milne Project - Uganda

The medical facility in Rubaga conducted HIV counselling and testing to 83 people including 27 males and 56 females. 10 tested positive, including 04 males and 06 females. However, all received guidance and counselling services respectively and they were advised to seek more medical care from government facilities that provide HIV/AIDS care.

The team held an HIV/AIDS in-reach. Because of the many donations and the ART services (HIV/AIDS services) that were brought closer to us, we were able to give back to the community and we are hoping for the trend to continue. This is due to the support from NGOs like PSI (Population Services International) IDI (Infectious Disease Institute) who have done a great job to support us socially and economically. Conducted HIV testing and counselling, Family planning, Malaria testing and treatment, Nutritional assessment for children, and lastly Scan services (though at a reduced cost, not the usual one). A total of 95 attendees for the in-reach benefited. Of these Conduct community Sensation outreaches on HIV/AIDs prevention care and management.

Emergency Response - Ethiopia

Emergency response to the internally displaced people in the Northern part of the country.

The 2nd round emergency response to the internally displaced people in the northern part of the country was accomplished to the beneficiaries on March 2, 2023. The emergency response targeted the displaced people who are currently in camps in an area called Azezo, Gondar City, 720 km north of Addis Ababa.

The Azezo IDP camp accommodates more than 2,850 people of which 865 are women. The emergency relief support focused on the 865 women as direct beneficiaries by providing 12 kilograms of wheat flour, 2 liters of cooking oil, and two bars of soap to each woman. This will represent 865 households and hence cover approximately 96% of the camp's population as the women take care of their families that include children.

The donations were distributed with love and messages of encouragement and best wishes.

Peace Building and Reconciliation South Sudan

AE South Sudan is the youngest among the national offices and is located in a nation that has experienced war and political instability in the past and recently, the fighting has resumed in some parts of the country.

AE South Sudan intentionally works towards trauma healing and the ground is fertile for this particular kind of ministry as the realities of war and violence, death and loss, poverty and displacement from family, sexual abuse among many other traumatic situations are too common for comfort.

AE South Sudan reaches out to students in schools through the use of Trauma Healing clubs and God has brought so much healing, reconciliation and restoration to the children and families in South Sudan.

Testimony of Trauma healing and transformation by Diana Juma

Diana Juma is my name, I am 13 years old. I am a member of trauma healing club in Juba Model Primary school.

Before I joined P.5 class in Juba model primary school last year, my father was the one taking all the responsibility of helping me in school more than my mother. He paid all my school fees, and provided me with everything I need in school. He always encouraged me to study hard to become a Doctor like my mother.

In January 2020, my father became sick and died after a short illness leaving me with my mom. Shortly, time for school came for registration. When I asked my mother for registration fee, she went quiet on me and after some time, she replied me that she has no money to pay me in school like what my dad used to do before.

In such a reply, I felt downcast, sad, and hopeless. But I received healing from such a traumatic statement from my Mom through prayers that I prayed to God, and He heard my prayers and changed my heart.

My many thanks go to African Enterprise South Sudan for the trauma healing program that they introduced in my school and has positively impacted healing and transformed my life and the lives of others in the school. I wish this program to continue in schools and to change the pupils' lives.

Trauma healing refresher course, Trauma Healing Program

During the one-day refresher training for teachers, students and pupils on trauma healing on 25th May 2023, about 100 teachers, students and pupils were trained.

Among those impacted was Mr. Mathew Lowrance from Buluk A1 primary school

I am Mathew Lowrance, 32 years old from Buluk A1 primary school Trauma Healing Club in Juba South Sudan.

I am a professional trained volunteer teacher on Trauma Healing Program by African Enterprise South Sudan with my two fellow teacher's madam Wilma Wol and Dina.

I am one of the volunteer teachers in my school who was by then traumatized so much because I could not facilitate my transport from home to school every day and could not meet my basic needs at home and this situation, have traumatized me so much in life for quite long. After I attended Trauma Healing Trainings, God was able to use me to develop His spirit of perseverance, tolerance, courage, and patience in me.

As I share with you my testimony right now, God has done blessings in my life. I am now a full-time teacher with good money that can now facilitate my transport from home to school every day and meet my basic needs at home. These Miraculous wonders that God has done in my life have brought me total healing from trauma and the wounds of my heart.

African Enterprise

Evangelizing Africa and the World.

Youth Empowerment

Pioneering Foxfire Cohort in Zambia

We are proud to launch the first fox fire team in Zambia this year. The Foxfire program is an intentional mentorship and discipleship training for young evangelists.

The team of 8 Foxfire pioneers in Zambia has hit the ground running with weekly training facilitated by Sydney Mukela, who has been working together with Foxfire coordinators from Kenya, Malawi, and South Africa, all of whom have had Foxfire programs running in their countries for a while now.

The training for the Foxfires has been all-rounded, including the vision and mission of African Enterprise, the various programs done by African Enterprise, the concept of the Foxfire from Judges 16:4-5, and even team building activities to break the ice and build a team spirit. The foxies are excited about the opportunity to serve God and to reach their fellow youths in schools and the community.

Meet the Foxies

OF ZAMBIA

FAITH CHALISHIKA

"Ever since I started meeting with the Foxes I have been impacted spiritually, emotionally and physically. I have been attaining knowledge that has made me grow in Christ in a way that I have never thought about"

GLORIA ANNIE MAKANGA

"It's such a tremendous blessing to serve the Lord with you all...so I've learned a lot about the African Enterprise on teamwork and the power of unity, looking forward to learning more from my fellow youths and, of course my leaders here in Zambia and around Africa."

The Foxies of Malawi

The Foxfire youth team of 6 young people has been trained in different areas of ministry like witnessing, follow-up, forgiveness & gospel presentation. We seek to wholistically equip the young people in all aspects of life, from spiritual growth, social skills, to matters academics, economics and finance. The Foxfire team was therefore trained on how they can start & operate a small-scale business. They were also trained in areas of discipline & character formation.

Foxfire Youth in conjunction with Design Outreach team conducted outreaches in communities around Namitete in Lilongwe. Apart from sharing the word of God, people were sensitized on how to prevent cholera and given chlorine & soap to enhance their sanitation. A total of **808 people were reached** in 6 communities, **338 people made new commitment to Christ.**

International Office

Mid-West Breakfast

The breakfast meeting that was held on 5th May 2023 in Wheaton Chicago was the first of its kind and it registered a gathering of over 50 members in attendance. AE leaders Dr Stephen Mbogo, Emmanuel Kwizera and Jammie Morrison shared about what God is doing in Africa through African Enterprise. In emphasis of what Africa has to offer, one of the conversation points was on how Africa is going to engage in global evangelism, "What kind of Christianity is Africa going to offer to the rest of the world? How can we partner together for the global mission"

[Click here](#) to watch the video report on the Mid-West Breakfast meeting

IB Chair visits AEE Kenya and AEI

Reverend Antoine, the International Board Chair visited African enterprise offices in Kenya on 22nd June 2023 for a session of devotion together with the Kenya office and the International office. After joyous singing, Reverend Antoine shared about 'Rediscovering the zeal of evangelism.'

"Finishing well is the easiest thing you can do in ministry if you know the principles. Unlike any other thing, ministry is governed by a few laws. If you know 5 or 6 formulas in algebra, you can solve any problem in algebra. In spiritual ministry, you master a few laws and the rest becomes very simple. Let us be zealous for evangelism in understanding of the principles of evangelism."

International Office

Utah Mission Team Visit

A team from Mount Olympus Presbyterian Church in Utah came to Africa on a mission trip and they paid African Enterprise a visit, both Kenya and international offices. The team did voluntary work at a local school which included painting the fences and walls, planting trees and holding several workshops for music, IT, literature, art and crafts and a health clinic at the school. They also played games of football and basketball with and against the teams of the students at the school. Dr. Stephen Mbogo and Rev. Benson Omondi (Kenya Team Leader) shared with the team the vision and mission of African Enterprise and the visiting missions team was eager to be a part of God's move in Africa through African Enterprise.
